Welcome

Friends and Colleagues,

Welcome to All Together Better Health and the beautiful city of Pittsburgh, Pennsylvania, USA. Making its way to the U.S. for the first time in its history, All Together Better Health is the world’s largest and longest-running global biennial conference series with a goal of advancing interprofessional practice and education for better health. This year’s conference represents the seventh in the series, first held in London in 1997.

The conference brings together providers, health system executives, educators, students, policymakers, and health care industry leaders to advance interprofessionalism worldwide. With over 524 confirmed presentations from individuals participating from 27 different countries, the program is rich with expertise and experience. The conference is designed to create a lively and dynamic exchange of ideas and practices that will benefit you immediately. Learn about theories, models, measurement, and evaluation. Interact with individuals developing strategies to align reimbursement with interprofessional care delivery and who are studying the economics of team-based care delivery. Dialogue with practice leaders who are educating teams and integrating advanced practice providers in the clinical practice environment. Compare and contrast models for redesigning educational programs to prepare a “collaboration-ready” health care workforce. Engage in discussions around the regulatory and policy implications of interprofessionalism in education and practice. There is something for everyone at All Together Better Health VII.

Moving forward, the All Together Better Health conference series will be coordinated by the World Interprofessional Education and Collaborative Practice Coordinating Committee (WCC), established in 2013 to represent networks across the world sharing the same values in interprofessional education and practice. We look forward to hearing from Richard Gray, from the (UK) Centre for the Advancement of Interprofessional Education, during the closing plenary session with his invitation to All Together Better Health VIII, to be held in Oxford, England, in 2016.

Special thanks are due to the many people who have helped to shape this conference: our sponsors, the Global Conference Committee, the many individuals who served on the Review Committee, staff associates of the University of Pittsburgh Health Policy Institute, and the many student and faculty volunteers from the University of Pittsburgh Schools of the Health Sciences. Thank you for your participation in All Together Better Health VII and for helping to shape the future of the global health workforce.

Best Regards,

General information
On behalf of the University of Pittsburgh and the National Center for Interprofessional Practice and Education, we welcome you to All Together Better Health VII, June 6 through 8, 2014, in Pittsburgh, Pennsylvania, USA.

Goals/objectives
The program will be designed to:
• Cultivate a global vision for collaborative practice in health care,
• Discuss new models of interprofessional care,
• Promote and disseminate research in the field,
• Explore educational strategies to prepare a “collaboration-ready” workforce, and
• Inform national and international policy.

Conference themes
All Together Better Health VII will build on the themes of previous ATBH conferences. Reflecting the contemporary focus on improving health care and population health while lowering costs, the conference will be organized around the following themes within the context of interprofessional practice and education:
• New models of interprofessional practice and team-based care;
• Aligning reimbursement with interprofessional care delivery and economics;
• Educating teams and integrating advanced practice providers in the clinical practice environment;
• Educational redesign to prepare a “collaboration-ready” health care workforce;
• Legal and policy environment;
• Technology applications (e.g., electronic health records, telehealth, e-health, social media, etc.); and
• Theories, models, measurement, and evaluation.

We encourage you to select sessions based on the session description (provided for all workshop and symposium/panel presentations), the type of presentation, and the theme of the presentation.

Types of presentations
• Plenary: Each plenary presentation will be 60 minutes and will be delivered in lecture style. Speakers will present all information of interest during the presentation to the audience with time allocated at the end or during the presentation for questions.
• Hands-on, interactive workshops: Each workshop will be 90 minutes and will provide a highly interactive portion (at least 60 minutes of the workshop will be interactive).
• Panel presentations: Each symposium/panel presentation will be 90 minutes and will be a collection of various works on a particular subject by a number of contributors with ample time built in for audience questions and participation.
• Roundtable discussion: Presenters will introduce a specific topic of interest related to one or more of the conference themes, facilitate in-depth discussion by audience participants, and document discussion outcomes.
• Oral presentations: Each oral presentation will be 15 minutes in length and will have a 5-minute Q&A at the end of the presentation. These presentations will be grouped into a full 90-minute session and address a common conference theme.
• Poster presentations: Poster presentations have been grouped according to themes for viewing throughout the conference. Each half day of the conference will feature new posters.

Conference Agenda

Thursday, June 5th, 9:00 a.m. to 5:00 p.m.

Pre-conference session
Location: William Pitt Union Ballroom - requires paid pre-registration
University of Toronto Centre for Interprofessional Education: Creating the Future of Collaboration: Integrating Interprofessional Learning into Practice
This pre-conference workshop will be facilitated by a faculty team from the University of Toronto's Centre for Interprofessional Education and has been designed as a practical and interactive intermediate-level workshop for practitioners, leaders, educators, and others from across both academic and practice settings. The workshop will use mixed pedagogical approaches to address critical competencies for interprofessional facilitation, how to develop interprofessional activities from ones initially planned for one profession, flexible interprofessional learning activities designed for any setting, lessons learned about embedding IPE into practice, and strategies for leadership and sustainability success.

Thursday, June 5th, 1:00 p.m. to 5:00 p.m.

Pre-conference session
Location: William Pitt Union Assembly Room
Tools from the National Center for Interprofessional Practice and Education: An interactive workshop featuring tools to support your IPECP interests
The National Center for Interprofessional Practice and Education is pleased to offer an interactive workshop to conference attendees. During this workshop, National Center staff will showcase the National Center's Resource Exchange, a community-led, fully searchable source for information about interprofessional education and collaborative practice, from articles and images to videos and presentations.

Thursday, June 5th, 6:00 p.m. to 9:00 p.m.

Welcome reception
Location: William Pitt Union Lower Lounge
Please join us for an opportunity to enjoy connecting with fellow conference attendees and health professionals in a social setting. The reception is included in the conference registration fee. Hors d’oeuvres and drinks will be provided.

Friday, June 6th, 7:00 a.m. to 8:30 a.m.

Registration and continental breakfast
Location: Alumni Hall First-Floor Foyer

Student welcome reception - students and mentors welcome
Location: Alumni Hall Fifth-Floor Foyer
Friday, June 6th, 8:30 a.m. to 10:00 a.m.

Welcome and keynote address

Location: Soldiers & Sailors Memorial Hall & Museum Auditorium

Sir David Nicholson, KCB, CBE

Sir David Nicholson was Chief Executive of the National Health Service (NHS) in England from September 2006 to March 2013. From October 2011 to March 2014, he was the first Chief Executive of NHS England, the body responsible for overseeing over £100bn NHS funding per annum to improve quality and secure the best possible outcomes for people. In the future, he envisages teams of health and care professionals working seamlessly together to care for patients in and especially out of hospitals, concentrating on helping them to stay well.

Sir David retired from the NHS in March 2014 following a career spanning over 35 years. He held senior leadership positions in acute and mental health services and at four regional health authorities, including London. He was awarded the CBE in 2004 and was knighted in 2010, both for his services to the NHS. In 2014, he was appointed as an Adjunct Professor of the Institute of Global Health Innovation at Imperial College London.

Friday, June 6th, 10:15 a.m. to 11:15 a.m.

Poster session 1 - see listing of posters in the Poster Section of the program

Location: Alumni Hall Connolly Ballroom

Friday, June 6th, 11:30 a.m. to 1:00 p.m.

Breakout session 1

1A. Exploring National Contexts for Interprofessional Education and Practice: An International Comparison of Forces and Factors

Location: William Pitt Union Ballroom

National contexts provide unique settings for interprofessional education and practice, reflecting different cultural, social, and political forces and factors. This panel is designed to address the need for international comparisons to clarify different barriers to, and facilitators of, interprofessional efforts. Comparisons are made among England, Norway, Canada, and the U.S.

- Phillip Clark, University of Rhode Island, Kingston, RI, USA
- Gerd Bjorke, Stord/Haugesund University College, Stord and Haugesund, Norway
- Shelley Doucet, University of New Brunswick, Saint John, NB, Canada
- Sarah Hean, Bournemouth University, Bournemouth, England, UK

1B. A practical approach to transform our students/professionals into real collaborative professionals

Location: William Pitt Union Assembly Room

It is generally accepted that collaboration is an essential part of health care, especially in hyperspecialized environments. The objectives of this workshop are to apply business conflict resolution techniques to teaching collaborative practice, focusing on emotions management, and to understand that interprofessional teamwork is as much about people management as about structure building.

- Juan-Jose Beunza, Universidad Europea-Madrid (Laureate International Universities), Madrid, Spain
- Hugh Barr, Westminster University, London, UK

1C. Incorporating Interprofessional Education from Academia to Practice

Location: William Pitt Union Room 548

Incorporating Interprofessional Education (IPE) in academia and translating it to practice are challenging endeavors. We will introduce the Geriatrics Champions Program, a novel program providing lessons on the effective use of TBL in IPE. Teaching the benefits of team cohesion using the individual and team Readiness Assessment Tests will be emphasized.

- Shelley Bhattacharya, University of Kansas Medical Center, Kansas City, KS, USA
- Stephen Jernigan, University of Kansas Medical Center, Kansas City, KS, USA
- Diane Ebbert, University of Kansas Medical Center, Kansas City, KS, USA
- Myra Hyatt, University of Kansas Medical Center, Landon Center on Aging, Kansas City, KS, USA

- Kristy Johnston, University of Kansas Medical Center, Kansas City, KS, USA

1D. Implementing Interprofessional Education in an acute care unit: Integration of theory into practice

Location: William Pitt Union Lower Lounge

In September 2013, an Interprofessional Education (IPE) Unit opened on an acute Medicine Unit in St. Catharines, Ontario, Canada. The purpose of this unit is to provide a forum where health care students can learn about interprofessional practice while simultaneously learning about discipline-specific standards of practice. Through small group discussion and case scenarios, participants will discuss the facilitators of and barriers to the development and implementation of an IPE unit in an acute care hospital.

- Dawn Prentice, Brock University, St. Catharines, ON, Canada
- Allison Brown, McMaster University, Niagara Regional Campus, St. Catharines, ON, Canada
- Debi Francis, Niagara College, Welland, ON, Canada
- Bonny Jung, McMaster University, Hamilton, ON, Canada

1K. Deliver Value by Design with the Patient and Family Centered Care Methodology and Practice: Improve Outcomes and Experiences while Reducing Costs

**Location:** Alumni Hall Room 343  
**Panel Presentation**

The Patient and Family Centered Care Methodology and Practice has been shown to be a replicable approach for improving experiences and outcomes while decreasing cost in health care. This six-step approach, which was developed at UPMC and is increasingly being adopted nationally and internationally, builds high-performance interprofessional care teams, engages patients and families as full partners in care redesign, breaks down silos between care providers and across the continuum of care, and creates transformational change. This presentation will engage audience members through discussion, videos, and an expert panel.

- Pamela Greenhouse, PFCC Innovation Center of UPMC, Pittsburgh, PA, USA
- Anthony DiGioia III, UPMC, Pittsburgh, PA, USA
- Lisa Schraeder, PFCC Innovation Center of UPMC, Pittsburgh, PA, USA
- Michelle Buliger, PFCC Innovation Center of UPMC, Pittsburgh, PA, USA

1M. Interprofessional performance in practice: interprofessional education to support interprofessional collaborative practice

**Location:** Alumni Hall Seventh-Floor Auditorium  
**Panel Presentation**

This presentation will provide a brief overview of the collaborative journey to develop the innovative joint accreditation between the Accreditation Council for Continuing Medical Education (ACCME), Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC). It will also provide examples of interprofessional education activities and outcomes achieved by Jointly Accredited organizations, including universities, health care systems, governmental agencies, and private education companies.

Breakout session 2

2A. New Approaches for Evaluating the Effectiveness of Linking Interprofessional Education and Collaborative Care Practice

Location: William Pitt Union Ballroom

Workshop

The focus of this workshop is to explore and develop program evaluation plans and processes for interprofessional education and collaborative care training in academic and clinical practice settings. This workshop will utilize the U.S. government Field Guide to Training Evaluation. Special focus will be placed on using Kirkpatrick Business Partnership Model™ in an effort to evaluate the effectiveness of linking education and practice for interprofessional education and collaborative care.

- Robin Harvan, MCPHS University, Boston, MA, USA

2B. Knows, Knows How, Shows How - Who Does It? Using the Interprofessional Objective Structured Clinical Examination (iOSCE) to Effectively Assess Interprofessional Education Competencies and Professional Activities

Location: William Pitt Union Assembly Room

Workshop

Assessment of interprofessional education (IPE) competencies and professional activities is challenging. This workshop will focus on the role of the iOSCE to do so. Participants will identify challenges to assessing performance in IPE, design an iOSCE station that incorporates several competencies, and plan an iOSCE blueprint to assess multiple competencies.

2C. Assessment Approaches in Interprofessional Education - How to Get Started

Location: William Pitt Union Room 548

Workshop

Faculty development is needed in IPE assessment and evaluation approaches. During this workshop, participants will: 1) discuss and apply IPE/IPC assessment concepts to create their own assessment activity to implement at their institution and 2) participate in a model faculty development exercise that can be recreated at their own institutions.

2D. Sustaining the Future of IPE-CP: the Global Research Interprofessional Network (GRIN)

Location: William Pitt Union Lower Lounge

Workshop

The Global Research Interprofessional Network (GRIN) members discuss interprofessional education; research and practice competencies; and how their virtual network can build research capacity in and improve the rigor of interprofessional education, research, and collaborative practice. Participating doctoral students, academics, and practitioners will explore how GRIN can foster their scholarly achievements.

3D. Working with Standardized Patients (SPs) in health education; everything you ever wanted to know but were afraid to ask!

**Location:** William Pitt Union Lower Lounge  **Workshop**

Standardized/Simulated Patients (SPs) have been part of international health education since the 1960s. In this practical, interactive workshop, we draw on our diverse experiences in two different countries to introduce some key elements of SP methodology for those who are interested in working with SPs but are not sure how to start. We will provide materials and information regarding recruitment of SPs, selection of learning objectives conducive to this type of activity, and the basics of SP training and feedback delivery. Through discussion, a large group fishbowl demonstration featuring an SP simulation, and small group conversation, we will explore appropriate contexts for this teaching method.

3K. Four Oral Papers (15 min. + 5-min. Q&A each)
Location: Alumni Hall Room 532  Panel Presentation
The UPMC Falk Outpatient Trauma Clinic is a teaching facility staffed by a large nonphysician-led interprofessional
team. This site represents a sterling example of a practice site operating at the nexus between interprofessional
practice and education. In our panel discussion, we will deliver five presentations describing the full spec-
trum of the program, beginning with the genesis of the nonphysician team, through the pragmatic organiza-
tional and operational strategies required to execute the vision, and ending with the impact of the team on
the Triple Aim outcomes.

3L. Creating an instrument to measure the CIHC IP Collaboration Competencies
Location: University Club Ballroom B  Roundtable Discussion
In 2010, when the Canadian Interprofessional Collaboration Competency Framework was released by CIHC, a
group of IP Champions from five countries came together to help shape a measurement instrument to assess
the competencies’ presence in both prelicensure and postlicensure learners. Their work resulted in a planned
three-round Delphi process generating collaborative ideas from a wide variety of IPE champions. To date,
two rounds have been completed. This workshop will allow participants, in small groups with a facilitator, to
focus on translating items from round 2 for one of the competencies for round 3.

4A. Using Simulation to Enhance Preclinical Interprofessional Education Programs

Location: William Pitt Union Ballroom

Workshop

An IPE team of healthcare professionals has developed several preclinical training modules utilizing Standardized Patients (SPs) to offer authentic IPE sessions to learners across four colleges. In an effort to share this experience, the authors will walk course participants through the maze of developing IPE modules that are adaptable to a variety of settings and healthcare professions. Participants in the workshop will develop an SP case scenario, incorporating one or more of the IPE competencies, to utilize at their home institution.

- Dawn Schocken, University of Southern Florida Health, Tampa, FL, USA
- Amy Schwartz, University of Southern Florida Health, Tampa, FL, USA
- Rita D’Aoust, University of Southern Florida, College of Nursing, Tampa, FL, USA

4B. Transforming health systems through collaborative leadership: Catalyzing Change!

Location: William Pitt Union Assembly Room

Workshop

Collaborative leadership is one of the key competencies for effective collaboration at senior levels of the health system. This workshop traces the work of the Canadian Interprofessional Health Leadership Collaborative and explores concepts of collaborative leadership, including how we can best teach it.

- Lesley Bainbridge, University of British Columbia, College of Health Disciplines, Vancouver, BC, Canada
- Sarita Verma, University of Toronto, Toronto, ON, Canada
- Maria Tassone, University of Toronto, Centre for Interprofessional Education, Toronto, ON, Canada

4C. Interprofessional Professionalism: I Know It When I See It!

Location: William Pitt Union Room 548

Workshop

Participants will develop observable interprofessional professionalism (IPP) behaviors, apply IPP behaviors to a case vignette, and analyze personal challenges in creating assessment tools. Presenters will define IPP, describe behaviors used in the interprofessional professionalism assessment (IPA), and share challenges and lessons learned in developing the IPA using complex research methodology.

- Jody Frost, American Physical Therapy Association (APTA), Alexandria, VA, USA
- Jennifer Adams, American Association of Colleges of Pharmacy (AACP), Alexandria, VA, USA
- Anthony Palatta, American Dental Education Association (ADEA), Washington, DC, USA
- John Tegzes, Western University of Health Sciences, Pomona, CA, USA

4D. Implementing a Longitudinal Case-based Curriculum for IPE Learners using Faculty Teaching Teams

Location: William Pitt Union Lower Lounge

Workshop

Faculty from multiple health professions schools at the University of Washington will demonstrate, via short simulations, elements of a longitudinal case-based IPE curriculum implemented this year, sharing tips and lessons learned. Participants will discuss benefits and barriers to implementing a classroom-based IPE curriculum for students and faculty from multiple schools.

4O. RAVEN (Reduce Avoidable Hospitalizations Using Evidence-Based Intervention for Nursing Facilities)—A CMS Innovation Project

Location: University Club Ballroom A Panel Presentation

RAVEN, a CMS Innovation Project of UPMC Community Provider Services (Aging Institute) has been implemented in 19 skilled nursing facilities in western Pennsylvania. Using nurse practitioners, focused assessment/communication tools, innovative education models, enhanced pharmacy engagement, and telemedicine technology that enables remote clinical assessment, RAVEN aims to reduce avoidable hospital admissions and readmissions, improve beneficiary health outcomes, provide better transitions in care, and lower costs in the care of long-stay Medicare-Medicaid residents. The nurse practitioners are trained in ger-o-palliative care and program development that supports integrating services into the natural interprofessional disciplines and practices that occur within each facility. Pilot data showed a reduction in unplanned transfers from 5.9 per 1,000 resident days to 2.1. RAVEN’s goal is to replicate and extend these findings across a broad array of SNFs.

Poster session 4 - see listing of posters in the Poster Section of the program
Location: Alumni Hall First-Floor Connolly Ballroom
Health Care Team Challenge Roundtable Forum

The Health Care Team Challenge (HCTC) is an interprofessional case challenge in which teams of students and faculty work together to develop and present the best-quality patient-centered care plan for a given scenario. Building on the successful International HCTC events in Sydney and Kobe, the International Network of Health Care Team Challenges representatives will present the different permutations of this type of team-based interprofessional curriculum with an international perspective. The panel will showcase the strength and flexibility of the Health Care Team Challenge model and demonstrate how it can be implemented as a successful and novel interprofessional educational opportunity in many diverse settings. Faculty will present different models of the HCTC that have been held at a variety of institutions worldwide as well as online. Participants will be invited to ask questions regarding the International HCTC model of IPE and the different permutations.

Breakout session 5

5A. Crescendo: Strengthening the Voice of Recipients in Improving their Health

Location: William Pitt Union Ballroom

Globally, healthcare delivery and improvement processes advocate placing recipients (individuals/families/communities) at the center of collaborative healthcare teams. This workshop will guide participants through a process of designing experiences for a variety of contexts and offer deliberative practice in creating strategies that strengthen recipients’ voices for improving their health.

- Patrick Cawley, MUSC Medical Center, Charleston, SC, USA

5B. From Tabletop to Laptop: Making Interprofessional Collaboration Real

Location: William Pitt Union Assembly Room

Successful interprofessional education requires that multiple health professionals engage in experiences in which they learn about, from, and with each other. In this interactive workshop, the audience will participate in one experience grounded in this learning principle and then see how this principle works in a successful large-scale Web-based educational platform.

5C. Government-led Innovation for Health: “Pencerah Nusantara,” the case of Indonesia

Location: William Pitt Union Room 548

Pencerah Nusantara is an interprofessional collaboration practice initiated by the Office of the President’s Special Envoy on MDGs, implemented in seven community-based health centers in six different Regions/Municipalities. The platform supports innovative actions implemented to reach optimum impact for revitalization of nationwide primary healthcare. This session will highlight business process reengineering around policy advocacy, technology, and multisector collaboration as a means of implementing partnerships.

5D. The rigorous use of theory to promote the effective development, implementation, and evaluation of Interprofessional Education

Location: William Pitt Union Lower Lounge  Workshop

Theory in interprofessional education is essential, but the rigor with which theory is applied can be limited. This workshop uses the concepts of coproduction, narrative, and theoretical quality to demonstrate how theory can best be applied and be practically useful in addressing the challenges of interprofessional education.

   - Elizabeth McConnell, University of East Anglia, Centre for Interprofessional Practice, Norwich, Norfolk, UK
   - Susanne Lindqvist, University of East Anglia, Centre for Interprofessional Practice, Norwich, Norfolk, UK

4. 5K-4. How does interprofessional education impact on healthcare students’ emotional Intelligence?
   - Hiroki Yasui, Nagoya University, Graduate school of Medicine, Nagoya, Aichi, Japan
   - Keiko Abe, Nagoya University, Graduate School of Medicine, Nagoya, Aichi, Japan
   - Manako Hanya, Meijo University, Faculty of Pharmacy, Nagoya, Aichi, Japan
   - Nobuko Aida, Nagoya University, Graduate School of Medicine, Nagoya, Aichi, Japan

5M. Collaborative Interprofessional Teams Improving the Health of Urban Poor

Location: Alumni Hall Seventh-Floor Auditorium  
Panel Presentation

This panel presentation will introduce a unique model of interprofessional team partnerships providing patient-centered care to an uninsured urban population. Participants will be able to 1) explore a new model of interprofessional team partnerships working from a primary care setting; 2) understand the unique challenges and opportunities each interprofessional team faces in serving low-income, vulnerable populations; 3) gain strategies in developing an interprofessional working culture that differs from previous independent practices; and 4) experience the struggles and triumphs of ensuring positive health outcomes for needy clients through collaboration with diverse interprofessional teams.

Closing plenary session

Location: Alumni Hall, Seventh-Floor Auditorium

Interprofessionalism in a Global Context

A global panel of representatives from the United States, Canada, the United Kingdom, Europe, Australasia, Japan, Eastern and African countries, and the World Health Organization will engage in a moderated dialogue covering top issues related to interprofessional education and practice from their respective regions.

- John Gilbert, CM, PhD, FCAHS, Moderator
- Lesley Bainbridge, BSR(PT), MEd, PhD, Canadian Interprofessional Health Collaborative (CIHC)
- Hugh Barr, PhD, Interprofessional Practice and Education for African and Eastern Countries
- Jill Thistlethwaite, MBBS, PhD, MMED, FRACGP, FRCGP, Australasian Interprofessional Practice and Education Network (AIPPERN)
- Richard Gray, EdD, MA, Centre for the Advancement of Interprofessional Education (CAIPE)
- Flemming Jacobsen, PT, MPH, PhD, Nordic Interprofessional Network (NIPNET)
- Susan Meyer, PhD, American Interprofessional Health Collaborative (AIHE)
- Andre Vyt, PhD, European Interprofessional Practice and Education Network (EIPEN)
- Hideomi Watanabe, MD, PhD, Japan Association for Interprofessional Education (JAIPE)

Sunday, June 8th, 1:00 p.m. to 5:00 p.m.

Postconference regional meetings

These meetings are open to all regional members and do not require preregistration.

Eastern and African Countries Interprofessional Network

Location: Alumni Hall Room 528

It is time to launch the Eastern and African Countries Interprofessional Network. Come prepared to add your commitment and contacts to the growing support to establish a network for interprofessional activists from the Mediterranean to the Pacific beyond the bounds of the existing networks. The meeting will be your chance to forge friendships and extend mutual support spanning far-flung continents and cultures. All are welcome.

Hosted by Ali Yildirim, Istanbul & De Montfort University, Leicester, and Hugh Barr, London.

NIPNET

Location: William Pitt Union Room 548

Please join us as we address the following agenda:

- Evaluation of the conference: organization and content
- What can we bring home and use for inspiration
  - Locally
  - In our own country
  - In NIPNET/the Nordic countries
- Final adjustment of NIPNET Conference in Stockholm 2-3 October 2014
- AOB
AIPPEN
Location: Alumni Hall Room 531
AIPPEN is the Australasian Interprofessional Practice and Education Network. It represents more than 400 educators, clinicians, and students throughout Australia and New Zealand. The overarching goal of AIPPEN is to promote better health care outcomes and enhance IPE and IPP in Australia and New Zealand by developing a network to promote communication among members. AIPPEN is administrated by a voluntary committee, and the AIPPEN Web site provides a platform for the exchange of information and the dissemination of research (www.aippen.net). The AIPPEN meeting at ABTH VII will provide an opportunity for members of AIPPEN and interested guests to meet some members of our steering committee, to hear about three major IPE research projects that have been facilitated on the AIPPEN Web site recently, to exchange information about key developments across the two countries, and of course to start planning for the 2018 Auckland conference.

AIHC
Location: Alumni Hall Room 532
The American Interprofessional Health Collaborative transcends professional and organizational boundaries in the U.S. to transform learning, policies, practices, and scholarship toward an improved system of health professions education, health, and health care delivery. Please join in an open conversation with the AIHC Board of Directors to learn about and engage in our growing array of initiatives, including specific activities conducted in collaboration with the National Center for Interprofessional Practice and Education.

CAIPE
Location: William Pitt Union Room 527
The purpose of the meeting will be to help participants understand how CAIPE has developed over the years and the struggles required to overcome difficulties, ensuring sustainability and independence. The interactive discussion will include how we react to major organizational changes and evidence of the need for such IPE networks.

EIPEN
Location: William Pitt Union Room 540
Among the items on the agenda are validation of the consensus on the European Charter for IPE, a book on best practices of interprofessional practice and education in Europe, projects and initiatives for training, research and development (e.g., a summer course for IPE trainers and a quality label for interprofessional practice and education), and planning of future conferences.
